

HOVERAir

HOVERAir VERSA Pocket Essential Combo

257632

VERSA Pocket brings stabilized 4K video into a compact camera built for effortless everyday shooting. With 3-axis stabilization, intelligent subject tracking, auto framing, and true vertical capture, it makes it easy to film yourself, other people and everyday moments without complicated gear or setup. With the optional Flight Kit accessory, sold separately, VERSA Pocket transforms into a self-flying camera in seconds.

PRODUCT DETAILS

FEATURES + BENEFITS

Pocket-Sized Camera with 3-Axis Gimbal

Capture smooth 4K handheld footage while walking, running or exploring off the beaten path with a pocket-sized 3-axis gimbal camera. Built-in modes including Spin Mode, Time-Lapse and Live Photo make creative handheld shots easy.

Creator-Ready Image Quality

VERSA pairs a 1/1.3-inch sensor with 4K60 video, 17.5 stops of dynamic range, and 10-bit HDR. Other features include 12MP photos, Live Photos, 2× lossless zoom, and AI Low Light Enhancement. Capture balanced footage across challenging lighting conditions, with the color depth needed for grading and matching footage from other cameras.

Intelligent Subject Tracking

Intelligent tracking follows movement and keeps the subject in frame, making it easier to record solo, capture another person or follow an active scene.

Native Vertical Capture

With a rotating 3-axis gimbal, VERSA switches to true vertical shooting instantly. Capture native 4K vertical videos with no cropping and no compromise — perfect for social content straight out of the camera.

Flip-Screen Quick Start

Flip the screen to power on and start shooting instantly, then review footage right on the 1.64-inch OLED touch display.

AI Features
Use AI Framing for stronger composition, while AI Auto Editing handles the post-production work, making creating shareable clips even easier.

Flexible Control
Control VERSA Pocket using the touchscreen, Hover app, MiCo mini controller or intuitive hand gestures for flexible operation across different shooting scenarios.

Multiple Audio Options
Capture audio with dual built-in microphones, a smartphone or a compatible external microphone for flexible recording in different scenes.

Internal Storage
Store more with 64 GB of built-in storage and microSD support up to 1 TB, then transfer footage by USB-C, Wi-Fi 6, or microSD.

Swappable Battery
Swap batteries to keep shooting. The same VERSA Smart Battery powers both Handheld and Flying Modes, providing up to 3 hours of handheld use or up to 14 minutes of flight time per battery.

Accessory-Ready System
More ways to use VERSA. More ways to get the shot. Take one-handed control with MiCo, set up steady shots with the Multi-functional Tripod, capture dynamic vehicle-mounted angles with the Suction Cup Mount, manage bright outdoor light with the ND Filter Set and keep batteries ready with the Charging Hub.

Flying Mode
Attach the Flight Kit, sold separately, to transform VERSA Pocket into a self-flying camera in seconds. Palm takeoff and 10+ intelligent flight modes — including Follow, Orbit, Dolly Zoom, Zoom Out, Bird's Eye and Dolly Track — make it easy to capture hands-free follow, third-person and aerial perspectives.

WHAT'S INCLUDED IN THE COMBO

- VERSA Pocket (includes battery) x1
- Extra Smart Battery x1
- HOVER Care x1
- Charging Hub x1
- Gimbal Protector x1
