PRODUCT DETAILS

360° voice pick-up & smart AI microphone array

Forbes has acclaimed that eMeet speakerphone: "well-built and delivers good call quality". eMeet's conference speakerphone operates perfectly both for meeting room which accommodates up to 8 people and for you to use it at your home office without holding your mobile phone too long or get too close to your computer. And for the times when you don't have access to a separate quiet office, it can also block the surrounding sound.

VoicelA patent guarantees immersive sound

Unlike other speakerphones, eMeet's USB speakerphones have their own patented noise reduction tech. The eMeet conference speaker is able to provide crystal clear HD audio due to applying with the VoicelA Algorithm. The acoustic echo canceller completely eliminates the echo and the noise isolating mics guarantee a superior experience even in noisy outdoor areas. No matter in a meeting room or your home office, just make your call and enjoy life-like communication.

Unique design especially for meetings

eMeet is a company specializing in the research and development of office products, with strictly screening and optimize their design by choosing aircraft-grade aluminum material and cool interactive lights, as well as the upscale touch panel, make the product full of high-tech and business feeling. The compact and portable design make it easy to put the eMeet M2 wireless conference speakerphone into your pocket or briefcase.

Multiple connections & high compatibility

No driver needed, just plug and play: The eMeet M2 Bluetooth speakerphone saves you time to debug devices. Easily connect to your mobile phone, tablet, PC by using the Bluetooth/ USB or AUX in/out wire. Not just in hardware, but also in terms of software compatibility, it has been tested and optimized for mainstream softphones like Zoom, Skype and etc. Operating systems like Windows 7, 8 and 10 as well as Mac OS also well adapted.

One button mute design

When you press the mute button in the middle of the operation panel, the eMeet M2 speakerphone will turn on a red ring light. At this time, the other side of the call can't hear you anymore. Whether you need to discuss privacy issues or just keep yourself in a state of silence just click the button. Also, an one-button answer/end call function is designed to facilitate your use, which can also apply to digital assistants like Cortana, Siri.. Just wake them up with one touch.
