

HOVERAir

# HOVERAir X1 PROMAX Retail Combo

255659

The Complete Flight Kit: HOVERAir X1 PROMAX with Charging Hub & Extra Batteries

- World's First Compact 8K Drone Camera: Capture stunning 8K video at 30fps with advanced SmoothCapture 2.0 stabilization for ultra-smooth cinematic footage.
- Expansive 107° Wide-Angle Lens: Achieve dramatic perspectives with a wide field of view and over 10 hands-free flight modes for effortless creative shots.
- High-Speed Subject Tracking: Follows subjects at speeds up to 42 km/h, with burst capabilities reaching 60 km/h—perfect for dynamic action scenes.
- Enhanced Safety & Reliability: Equipped with advanced obstacle detection and aerospace-grade HEM propeller guards for secure, worry-free flights.
- Generous Storage & Instant Sharing: Comes with 64GB built-in storage, expandable up to 1TB, plus live app control for real-time editing and instant social sharing.

PRODUCT DETAILS

**Revolutionary 8K Video Performance:**
The X1 Pro Max sets a new benchmark in aerial imaging as the world's first compact drone to record in stunning 8K at 30 frames per second. Whether you're capturing sweeping landscapes in horizontal 8K or creating vertical 4K content optimised for social platforms, every frame is packed with detail, depth, and cinematic clarity.

**Wide-Angle Vision & Intelligent Flight Modes:**
Capture more of the scene with the X1 Pro Max's expansive 107° field of view, designed to deliver immersive, cinematic perspectives with every shot. Paired with over 10 hands-free flight modes—including Hover, Follow, Zoom Out, and Dolly Track—this intelligent system lets you create dynamic, professional-grade footage without needing piloting skills.

**High-Speed Tracking with OmniTerrain Intelligence:**

© 2026 All rights reserved. Note: Specifications and design are subject to change without notice.

Built for dynamic environments, the X1 Pro Max uses advanced subject tracking to follow fast-paced action at speeds up to 42 km/h, with burst acceleration reaching 60 km/h. The OmniTerrain system intelligently adapts to changing surfaces—snow, water, cliffs, and more—ensuring smooth, responsive tracking across any landscape.

**SmoothCapture 2.0 Stabilisation:**
The X1 Pro Max is equipped with a precision-engineered 2-axis gimbal, advanced electronic image stabilisation (EIS), and intelligent horizon levelling, all working in harmony to deliver fluid, cinematic footage in any scenario. It’s built to keep up with your movement, so your content stays professional—even when the action gets intense.

**Real-Time Safety and Precision Navigation:**
Equipped with enhanced rear ToF (Time-of-Flight) and visual sensors that intelligently scan the environment in real time. The upgraded detection system enables precise obstacle recognition and automatic braking at speeds up to 3 m/s, ensuring smoother, safer navigation in both outdoor and indoor settings.

**Portable, Rugged & Adventure-Ready:**
Designed for mobility and built to endure, the X1 Pro Max features a foldable, fully enclosed body that slips easily into any gear bag. Its aerospace-grade HEM propeller guards deliver exceptional durability, flexibility, and impact resistance—tough enough to withstand the rigours of travel and outdoor exploration.

**Expanded Storage & App Control:**
Comes with 64GB internal memory (expandable to 1TB) and full control via the Hover X1 App for live previews, mode switching, and instant sharing.

**What’s In The Box:**

- HOVERAir X1 Pro Max ×1
- Smart Battery ×3
- Charging Hub ×1
- Combo Case ×1
- USB-C Cable ×1
- Storage Bag ×1
