i-Type Color Film Black Frame 8X

250921

For fashion or form, our Black Frame Edition is here to explore expression. The matte black frame makes blacks bolder, whites brighter, and colors sing. Capture moments that move you with this online-only triple pack, including two color film packs and one black and white. Compatible with Polaroid Now+, Polaroid Now, and Polaroid Lab

PRODUCT DETAILS

Polaroid i-Type Color Film Black Frame Edition

Frame your party moments in bold, matte black. This i-Type Color film Black Frame Edition makes each color pop. A celebration-ready film that comes with 8 photos in every pack.

Store chilled, shoot warm

Temperature affects how the film works. Keep it stored cold in the fridge, but never freeze it. Ideally you should let it adjust to room temperature before you use it. That's around 55–82°F (13–28°C). When it's cold out, keep your photos warm in a pocket close to your body while they develop. Or if it's a hot day, make sure they stay cool.

Shoot with the light

The more light in your shot, the better your photo will turn out. Instant film loves light, especially natural light. Use the flash for all your indoor photos. For best results we also recommend using the flash for outdoor shots, unless it's a bright sunny day.

Develop in the dark

All photos appear blank at first. They're most sensitive during this time, so don't bend or shake them. Shield them from the light, and place them face down as they develop. Keep B&W photos shielded from light for about 1 minute, and color film for about 6 minutes.

Care for your camera

Your camera has a set of rollers inside the film door. Each photo passes through these rollers as it's made, so it's important to make sure that they stay clean. If the rollers get visibly dirty then gently wipe them down with a soft, damp cloth.

For use with:

- i-Type Cameras
- Polaroid Lab
