256180

Discover hands-free freedom with the Momcozy S12 Pro wearable breast pump. Quiet, lightweight, and efficient with an intuitive LED screen.

Style **SINGLE**, DOUBLE

PRODUCT DETAILS

Discover freedom with the Momcozy S12 Pro portable breast pump – your essential companion for relaxed and efficient pumping, no matter where you are. This innovative breast pump has been specially designed for mothers who want to make the most of their valuable time. Thanks to the hands-free operation, you can easily go about your everyday life while the pump works quietly and discreetly - with less than 45 dB, you won't disturb your baby even at night. The stimulation mode mimics baby's natural sucking and promotes better milk flow while sparing the nipples. The easy-to-use LED indicator lets you know the battery status at all times, even in low light conditions, and the automatic shutdown after 30 minutes saves valuable energy. The Momcozy S12 Pro puts you in control for maximum flexibility, comfort and efficiency when pumping. Make your everyday life easier and enjoy the freedom to express milk for your baby when and where you want

Features:

- Faster & More Efficient Pumping: Powerful -292 mmHg suction delivers up to 28.2% faster pumping and 6% more milk output than the previous model. (*Based on Momcozy Lab data)
- DoubleFit™ Hybrid Flange: Innovative soft silicone meets firm PP for a secure, leak-free seal. BPA-free and skin-friendly for all-day comfort.
- Simple Setup & Quick Cleaning: Only 4 parts and 3 easy steps. Designed with a smooth, one-piece funnel for easy rinsing and drying.
- Thoughtful Design for Ease & Safety: Ergonomic grip tabs & dual-use flange cover for easy handling, intuitive digital screen, and 30-min auto shut-off for worry-free sessions.
- Long-Lasting Power & Quiet Use: 1350 mAh battery supports up to 8 sessions (240 min) on one charge. 46 dB whisper-quiet for discreet pumping anywhere.

Charging Note
Do not charge the full pump upside down or with the motor panel-side down. Remove the motor and charge it separately. Keep it dry and away from milk or water residue.

Safety Warning
Do NOT use this device if you have a cardiac pacemaker, implanted defibrillator, or any other metallic or electronic implant, as it may cause electromagnetic interference or serious injury.
