

TG Attachment Cone

256836

Therabody Theragun Cone Attachment: targeted percussive therapy for trigger points and smaller muscle areas like the hands and feet, with a dense design for precise, concentrated relief.

Colour

PRODUCT DETAILS

Cone Attachment

The Cone Attachment is designed for targeted muscle treatment, focusing on trigger points and smaller muscle areas like the hands and feet. It also helps break up scar tissue and delivers our most precise percussive therapy.

Pinpoint relief for smaller muscles

The small surface and dense design of this attachment provides precise, concentrated treatment of smaller muscle groups that need attention.
