PRODUCT DETAILS

Hohem iSteady X3 SE+ Features

- Detachable Remote Control
- Foldable and Portable
- Built-in Extention Rod
- Person and Object Tracking
- 11-H Battery Life

Go Solo, Take Selfies

Detachable Design, Easily handle selfies within 10m (32.8ft), making every shot as perfect as you want it to be.

Instant Charging

Magnetic Design, Snap it into the handle, and it's ready for an instant charging, keeping you free from low battery anxiety.

Person Tracking

Whether the phone camera is moving or the person is in motion, smart tracking precisely keeps the target in focus at all times.

*Used within Hohem Joy app

Creative Studio

Discover tailored shooting techniques and camera movements based on trending scenes, fueling your creative inspiration.

Shoot with Hohem Joy

Various Templates - Record movies with Inception, Dolly Zoom, Panorama and other templates through a simple tap to activate automatic gimbal move. Inception, Panorama, Dolly Zoom and Motion Timelaps.

3-Axis Stabilization

iSteady 8.0 Stabilization - The next-gen stabilization algorithm ensures your footage stays smooth and steady whether you're walking, running, or performing dynamic camera movements.

Upgraded Compatibility

300g Payload - With enhanced motor torque, it delivers steady shooting for larger smartphones like iPhone 15 Pro Max, HUAWEI Mate 60 Pro and other non-foldable smartphones up to 6.8 inches.

*For more details please refer to the Smartphone Compatibility List.

11-H Battery Life

For continuous video creation from dawn to dusk, no more worries about low battery.

*It lasts for 11 hours in balanced and stationary state, and 4 fours with the fill light at maximum brightness. *Data sourced from Hohem. Laboratory.

Standby and Save

Standby Mode - Instantly enter standby mode by pressing the power button twice, saving your battery power.

Free Your Hands

Tripod Included - Tripod included in the package. It stands steadily on a flat surface to free your hands for time-lapse photography, remote selfies and live streaming.

1/4"-20 Screw Hole

Expansion Port - Screw hole reserved on the bottom for all kinds of tripod with 1/4"-20 screw, allowing easy shooting in various scenarios.
