SUPERIOR SIGNATURE SOUND + ANC

Inspired by Marshall heritage, Monitor II A.N.C. headphones are authentic yet modern, delivering high performance sound like you've never heard before. Advanced active noise cancelling technology blocks out the noise, letting you focus on what matters most – the music. Featuring custom tuned 40 mm dynamic drivers, these headphones produce a superior signature sound only Marshall can deliver. Engineered for an all-day listening experience, they boast up to 30 hours of wireless playtime with active noise cancelling and up to 45 hours without, meaning you'll never miss a beat. While the unique ergonomic construction means no matter how hard and heavy the music, they will rest lightly on your head for the perfect fit. Monitor II A.N.C. headphones are truly made for the long haul.

- Advanced active noise cancelling technology that blocks out the noise, letting you focus on what matters most – the music.
- Custom tuned 40 mm dynamic drivers that produce a superior signature sound only Marshall can deliver.
- Music for up to 30 hours of wireless playtime with active noise cancelling and 45 without.
- Ergonomic all-day listening experience, while continuing to hold true to the classic Marshall look.
- Help on-the-go from your Google Assistant.
- Collapsible design.
- Multi-Directional Control Knob for music and phone functionality.
- ANC Button toggles between ANC, Monitoring Mode or to turn off ANC.
- M-Button lets you switch between three equaliser presets or access your voice assistant on-the-go.
- Marshall Bluetooth app lets you personalise settings and access everything the Monitor II A.N.C. headphones have to offer.
- Included is a USB-C charging cable, a detachable 3.5 mm cord and a canvas-carrying bag to stow it all away.
