DÉTAILS DU PRODUIT

Heat, Vibration, IR + FIR LED Light Therapy Comfort Enhanced Design Uninterrupted Relief

Experience next level back relief with ThermBack LED, a 4-in-1 back wrap with heat, far infrared, vibration and LED light therapies. Designed for maximum results, each therapy is precisely placed to deliver the optimal science-backed dose: heat with infrared placed across the entire lower back, vibration targeted around muscles and tissues, and LED light therapy placed along the spine. When combined, these therapies work together to relieve lower back discomfort and speed up the body's natural recovery process more effectively than heat alone. Whether you're a gym enthusiast, a golfer wanting to play a round without discomfort or simply seeking relief from lower back stiffness, ThermBack LED is a convenient, effective way to get back to doing the things you love.

Science-backed benefits

- Fast-acting lower back relief
- Boost circulation
- Improve mobility
- Reduce stiffness
- Target muscles & spine

Key Features:

- 4 advanced therapies in 1: Heat, vibration, far infrared energy and infrared LED light therapies for fast, effective lower back relief
- Customizable treatments:
 - 3 levels of fast-acting heat and FIR
 - 3 vibration patterns
 - Optional infrared LED therapy
- Slim, comfort-enhanced fit design can comfortably be worn over or under clothes
- Comfortable design stays in place with everyday movement and fits most body shapes with easily adjustable Velcro straps and extra elastic compression strap for a personalized fit.
- Crafted from cutting-edge carbon fibre mesh to evenly distribute heat and deliver the precise science-backed doses for maximum efficacy

- 180 minute battery life with ability to use device while charging
- Connect to the Therabody App for device-free treatment control and customization

What's in the Box

- ThermBack LED device
- Soft travel case
- USB-C charging cable
