Marshall Monitor III A.N.C., crème

256317

Each iconic pair of Marshall headphones is built on over 60 years of mastering the craft of head-turning sound. And Monitor III A.N.C. tops the lot. Every time you hit play, get ready to be fully immersed in thunderous bass and screaming highs for 70 hours of wireless playtime with active noise cancellation, and 100 hours without. Add active noise cancelling technology to the mix and it'll almost feel like it's only you and your favourite musician in the room, on the street or in the train carriage.

70 HOURS OF WIRELESS PLAYTIME WITH ACTIVE NOISE CANCELLATION AND 100 HOURS WITHOUT

You know that moment when your favourite part of a track is about to drop and then you run out of playtime? We don't either. Monitor III A.N.C. headphones keep the music going strong with 70 hours of wireless playtime with active noise cancellation and 100 hours without, meaning you'll never miss a beat. If you need to charge in a hurry, just plug in with the USB-C cable, and you can get up to 12 hours of wireless playtime after just 15 minutes of charging. The listening marathon starts now.

ACTIVE NOISE CANCELLING & TRANSPARENCY MODE

Monitor III A.N.C.'s active noise cancellation has been significantly upgraded from the previous model. We've also introduced new advanced technology that continuously measures ambient noise to block out unwanted sounds. It'll almost feel like it's only you and your favourite musician in the room, on the street or in the train carriage. With three levels of noise cancellation, low, mid and high, you can adjust it to your preference or let some of the outside world in using Transparency mode. To customise the sound level of noise cancelling just open the Marshall Bluetooth app or use the button on the left ear of your headphones to adjust the setting.

MARSHALL SIGNATURE SOUND

There's sound and then there's Monitor III A.N.C.'s Marshall signature sound. Featuring a range of premium features made to maximise your listening experience, the sound quality of these headphones hits the right notes in more ways than one. They're equipped with Dynamic Loudness, meaning that the treble, mids and bass are adjusted in the most optimal way at every volume. We also moved the drivers to give your ear more space inside of the cushion so that you get a fuller sound every time you hit play. Monitor III A.N.C. is your sensational sound guarantee.

RUGGED AND FOLDABLE DESIGN

It's official. Monitor III A.N.C. is the latest triumph in Marshall design. It's built tough to more than handle everyday wear and tear. It features a foldable design so that you can pack it away with ease in its premium hard case. The soft ear cushions and plush headband with metal swivel rotation hinges, perfectly adapt to any head shape for optimal sealing and comfort. Textured PU and TPU leather look, brass accents and the embossed Marshall script give these headphones that classic feel. Add all these together and you get an aura that screams 'iconic'.

SOUNDSTAGE SPATIAL AUDIO

Make your sound more spacious with Monitor III A.N.C. Our new Soundstage spatial audio technology releases your music by moving it out of your head and into a virtual room. When using this feature, your sound will have a wider presence, so that you feel more immersed. With the Marshall Bluetooth app, you can select your room size and decide on the amount of spatial effect you want, to tailor the sound to your taste. This is expansive sound at its finest.

ADAPTIVE LOUDNESS

Monitor III A.N.C. comes equipped with our brand-new Adaptive Loudness feature. This technology continuously monitors the music you're listening to and the surrounding noise to adjust the tonal balance accordingly. This way, the treble, mids and bass sound just right, at every volume, no matter where you are. From now on, you never have to compromise on audio quality.

MULTI-DIRECTIONAL CONTROL KNOB

This is what full control of your music looks like. With Monitor III A.N.C.'s multi-directional control knob, you can play, pause, skip tracks, adjust the volume, and turn your headphones on or off. This design feature also allows you to start Bluetooth® pairing as well as receive, end or reject phone calls. Speaking of phone calls, Monitor III A.N.C. is built with four microphones to ensure better clarity when talking. Based on your exposure to external noise, these headphones will automatically select the optimal combination of microphones to use.

CUSTOMISABLE M-BUTTON

Effortlessly navigate your favourite features with Monitor III A.N.C.'s customisable M-button. Instantly recognisable thanks to its iconic M script design, this button puts the power in your hands. You can use it to access Spotify Tap and get the music playing. Or quickly switch between two different equaliser settings of your choice. And if you want to use it to start your phone's voice assistant, consider it done. All you have to do is go to the Marshall Bluetooth app to customise the M-button the way you want.

BLUETOOTH LE AUDIO-READY

We don't want anything to get in the way of your music, so Monitor III A.N.C. is built to be Bluetooth LE Audio-ready. This future-proof technology will open a new world of audio sharing possibilities with Auracast™.
