

# Gaufres belgian waffle iron

BW-1000B

The handle comes with a **locking mechanism**, keeping the lid in place while the waffles are baking.

**Non-stick coating** helps release the waffles from the iron.

Set manually the **thermostat** to your preferred waffle results. The lamp will shift from red to green when waffles are ready.

**TIP!**

Save your waffles for later in the freezer. Heat them up in a toaster when you want a quick snack.

Gaufres: Parts of Belgium are French-speaking. In French, waffles are called gaufres.
