

Epic Lux Lab Edition ANC Wireless Over-Ear Black

255194

Introducing our most advanced headphones ever, where epic sound transforms your personal audio landscape. The Epic Lux Lab Edition delivers immersive audio with high-fidelity 32mm dynamic drivers and Advanced Adaptive Active Noise Cancellation, creating a sonic sanctuary that blocks out the world or keeps you connected through Be Aware mode. Intuitive touch controls let you effortlessly manage your music and calls with simple swipes and taps, while precision button controls provide quick access to volume, noise cancellation, and playback. Lab Spatial Audio with head tracking technology places you at the center of your music, making every listen feel like a live performance, while Hi-Res Audio preserves every musical nuance. Personalize your experience through the JLab App, fine-tune your sound profile, and share audio wirelessly with friends using LabShare Technology. With up to 90+ hours of playtime, luxurious Cloud Foam™ earcups, and convenient wireless charging, the Epic Lux Lab Edition delivers unparalleled comfort and convenience. Welcome to the future of sound, where innovation meets pure audio perfection.

PRODUCT DETAILS

Immersive Lab Quality Sound

Enjoy exceptional sound quality via high-fidelity 32mm dynamic drivers, bringing depth and clarity to your music. With 90+ hours of playtime (60+ hours with ANC on), enjoy uninterrupted music sessions or calls. Dive into an immersive audio experience with Lab Spatial Audio, featuring built-in head tracking that makes you feel like you're sitting in the middle of a concert or standing in the center of a fight scene.

Adaptive ANC and Be Aware Mode

Adaptive Active Noise Cancellation reduces environmental sounds up to 42 dB. Switch to Be Aware mode to stay connected to your surroundings with just a tap. The intelligent system continually adapts to your environment for the best noise canceling experience.

Hi-Res Audio

Immerse yourself in the richness of Hi-Res Audio, delivered through LDAC (for Android). On iOS you'll

experience AAC, an advanced audio compression codec, ensuring that every note and detail of your music is reproduced with stunning clarity.

Lab Spatial Audio with Headtracking

JLab's innovative spatial audio algorithm creates a three-dimensional sound experience. Head tracking technology adds an extra layer of immersion, making your audio feel more dynamic and responsive.

Cloud Foam™ Comfort

Ergonomically designed Form-Fit™ Earcups with Cloud Foam cushions and adjustable hinges provide ultimate comfort for any travel, workout, or commute.

Customize Your Sound + Experience via JLab App

The new JLab App lets you personalize ANC/Be Aware settings, swipe, tap and button controls, and sound profiles. Choose from JLab Signature, Balance, Bass Boost presets, or create your own with the 8-band EQ. A safe hearing option helps protect your ears with volume limits. Get instant software updates directly through the app.

Available on the App Store or Google Play Store.

Crystal Clear Calls

Featuring 4-cutting-edge microphones with an advanced environmental noise reduction algorithm, these headphones ensure crystal clear and uninterrupted communication during calls, ensuring exceptional clarity and eliminating external disturbances for an impeccable conversation experience.

Control Options

Navigate your audio experience with versatile control methods. Swipe on the earcup to control media playback. Program tap gestures for quick commands or the dedicated button controls. Customize the Epic Lux Lab Edition controls directly through the JLab App to personalize your listening experience.

Bluetooth Multipoint + LabShare

Utilize Bluetooth Multipoint to seamlessly connect to and toggle between two source devices simultaneously for added convenience. Listening with a friend? Enjoy wireless LabShare Mode allows you to share audio wirelessly between two or more Epic Lux Lab Edition headphones.

Wireless charging

Enjoy wireless charging with an included dock. The foldable design features rotating earcups for maximum portability. Swipe, touch, and button controls offer intuitive interaction. Easily find your headphones with Google Fast Pair. A premium carry case is included for protection and convenience.

Google Fast Pair

Enjoy effortless pairing with an Android device with Google Fast Pair. When you take out your headphones and have a supported Android device, you'll see a pop-up enabling you to connect via Bluetooth. Don't worry if you're not an Android user, JLab earbuds will connect with any Bluetooth enabled device like iPhone with just a couple taps. Plus with Google Find My Device, you can locate your headphones.
