PRODUCT DETAILS

Immersive Lab Quality Sound
Enjoy exceptional sound quality via 40mm drivers, bringing deep bass and clarity to your music. With 70+ hours of playtime (40+ hours with ANC on), enjoy uninterrupted music sessions or calls.

Built-in Lab Spatial Audio
Featuring spatial audio EQ straight from the Lab, enjoy another dimension and immersive sound. JLab’s spatial audio algorithm makes you feel like you’re sitting in the middle of a concert or standing in the middle of a fight scene.

Hybrid ANC and Be Aware Mode
Hybrid Active Noise Cancelation leverages mics on the exterior and interior of the headphone for optimal noise cancelation performance across a broad frequency range. Activate the Hybrid Active Noise Canceling to eliminate external distractions up to 30 dB or switch to Be Aware mode to remain connected to your environment.

Cloud Foam™ Comfort
Form-Fit™ Earcups are ergonomically shaped to the natural outline of the ear. The 1” Cloud Foam cushions and adjustable hinges further customize your comfort for any travel, workout, or commute.

Customize Your Sound + Experience via JLab App
With the new JLab App, customize the ANC/Be Aware settings, touch controls, and sound to your personal preference - or use the presets for JLab Signature, Balance or Bass Boost. Safe hearing option allows you to protect your ears from hearing damage with volume limits. Plus, get software updates for

your product right when they're available. Available on the App Store or Google Play Store.

Crystal Clear Calls
Furnished with cutting-edge noise-canceling microphones, these headphones ensure crystal clear and uninterrupted communication during calls, ensuring exceptional clarity and eliminating external disturbances for an impeccable conversation experience.

Easy Connections + Google Find My
Utilize Bluetooth Multipoint to seamlessly connect to and toggle between two devices simultaneously for added convenience. Wireless Share Mode allows you to share audio wirelessly between two Lux headphones.

Plus effortless pairing with an Android device with Google Fast Pair and Microsoft Swift Pair. When you take out your headphones and have a supported Android device, you'll see a pop-up enabling you to connect via Bluetooth. Don't worry if you're not an Android user, JLab earbuds will connect with any Bluetooth enabled device like iPhone with just a couple taps. Plus with Google Find My Device, you can locate your headphones. With Microsoft Swift Pair, seamlessly connect to Microsoft Windows 10 and 11 devices. When a Windows 10 or 11 PC detects the Go Lux ANC it will prompt you to connect with a single click.

And more!

- LabShare: Share audio from one device between two compatible JLab headphones
- Foldable Design with Rotating Earcups: Designed for convenience and portability, these headphones are easy to store and carry.
- Earcup buttons offer easy controls, which you can customize via the JLab App.
