254264

Get the shot—even when your camera's out of reach—with the Bluetooth-connected Waterproof Shutter Remote. It lets you easily start and stop recording with just one button and features an LED light that displays your camera's recording status. Can be attached to bike handlebars and other gear, or worn using the included wrist extension strap.

## PRODUCT DETAILS

Get the shot—even when your camera's out of reach—with the Bluetooth-connected Waterproof Shutter Remote. The 1-button design makes it easy to start and stop recording, and it can be mounted anywhere. Mount it to the grip of an extension pole to control your GoPro on the other end, attach it to your bike handlebars to start recording without taking your hands off the bars or conveniently strap it to your wrist when you're on the go. Also features an LED status light that lets you know that your camera's recording when it's out of sight.

## Features

- Simple 1-button Bluetooth camera remote allows you to take photos and start/stop video recording without reaching for the camera
- LED status light confirms that the camera has received your command to start or stop recording and provides the camera connection status when in idle mode
- Included wrist extension strap lets you conveniently wear your remote
- Waterproof<sup>1</sup> so you can get the shot even in rain or snow
- Range of up to 20 m in optimal conditions<sup>2</sup>
- Bluetooth Low Energy maximises battery life for both the remote and your camera

## Compatibility

- HERO13 Black
- HERO12 Black
- HERO11 Black
- HERO11 Black Mini
- HERO

## What's Included

- Waterproof Shutter Remote
- Remote Strap
- Wrist Extension Strap
- Remote Battery

## Footnotes

1. Waterproof up to 5 m. Bluetooth connectivity in Waterproof Shutter Remote is not functional under water.
2. Range may be affected when recording with high-performance settings and by interference in the surrounding environment.
