Anova Vacuum Sealer Pro

251760

Consider the Anova Precision™ Vacuum Sealer Pro the more robust, older sibling to our best selling “minimalist” Precision™ Vacuum Sealer. You can expect a high power vacuum, reliable double sealer, built-in bag storage and cutter, an accessory port for sealing containers, and the ability to seal wet foods without worry – all with just one hand.

PRODUCT DETAILS

Bulk sealing specialist.

This vacuum sealer was built to handle over 100 continuous vacuum seals. That's confidence in the kitchen.

Keep it fresh, food nerds.

Vacuum sealing is a super quick and easy way to extend the shelf life of most foods – especially if you plan on freezing it. Outside of using your sealer for sous vide cooking, you'll find it endlessly useful for keeping things like fish, meats, cheeses, produce, and even grains or coffee as fresh as possible for as long as possible.

One handed sealing.

Having an extra hand available in the kitchen can be massively helpful. That's why we've designed the Anova Precision™ Vacuum Sealer Pro to be fully functional, while using just one hand. Clamping bags, vacuuming, and sealing are all easily accomplished with a single hand. We call it one-handling business.

Think outside the bag.

More options for reducing plastic waste! An added accessory port and included vacuum hose opens the door to sealing much more than just bags – specialized canning jar lids, a wide variety of vacuum-ready containers, and even resealing wine bottles are all on the table.

Marinade-friendly.

No longer must #anovafoodnerds live in fear of sucking up excess liquid into the vacuum port of their sealer. The Anova Precision™ Vacuum Sealer Pro was built with a low pressure suction function and a reliable double sealer to handle even the juiciest of foods, no problem.

Specifications
