Milo Action Communicator - Equinox Zwart

251256

Speak with friends while you ski, surf or ride. Hands-free, phone-free. For adventures on the slopes, trails and water. Milo only weighs 72 grams and will fit into the palm of your hand, but it is packed with groundbreaking new technologies and powerful hardware. Enjoy seamless Multiway voice chat, Hands-free talk, Voice control, Wind noise reduction and a full day of battery life, plus much more.

Kleur

PRODUCT DETAILS

Waterproof and rugged

Milo is designed to meet the challenges you face on all active adventures. It is impact resistant, dust- and waterproof and can be fully submerged in water.

The unique Milo clip

Designed to be worn on your body, the unique Milo clip system uses a magnet to snap in your Milo and trigger a secure mechanical lock that keeps Milo in place even on the roughest rides.

Multi-way voice

All members in a group can speak naturally, including talking over each other.

Advanced wind noise reduction

Six digital low-distortion microphones and sophisticated wind- and background noise reduction deliver clear voice in all conditions.

All day battery

The integrated rechargeable lithium polymer battery provides a full day of use under normal conditions, even in cold weather. If needed, you can use a portable power bank to charge Milo while still talking to your group.

Milo Mesh Network

Your Milos create a secure mesh radio network. No Wi-Fi or phone signal needed. The range between two grouped Milos in clear terrain is usually at least half a kilometer (third of a mile), often more. Range is affected by many factors. The MiloNet™ network extends your group's overall range when the group spreads out.

Private and secure

Milo creates an encrypted network for your group. That means you don't need to pick a channel, and nobody outside your group can listen in on your conversations.

Headset optional

Milo can be used with or without a headset. Connect with your favorite Bluetooth or wired headset for that in-ear sound experience.

Specificaties

Product attributen

EAN:	0850025239110
Fabrieksnummer:	MC-B-01-E
