PRODUCT DETAILS

Fast Charge:
The HOVERAir X1 charging hub slashes charging time from 55 min to just 35 min, ensuring you can return to the skies in record time. Whether you're in a hurry to capture that perfect shot or simply want to maximize your flying time, the X1's fast charge capability has you covered, offering more time in the air.

Smart Charging:
The HOVERAir X1's battery charger prioritizes the fullest battery first, allowing you to minimize downtime and get back in the air as swiftly as possible. With the press of a button, you can easily check your battery level and monitor the charging progress through the intuitive LED lights, giving you full control over your flight preparation.

Portable:
Sleek and compact, the HOVERAir X1 charger doubles as a portable companion for your adventures. It can be unplugged and used to carry extra batteries, ensuring you’re always equipped for extended flights.

Compatibility:
Compatible only with HOVERAir X1, not with X1 PRO/X1 PROMAX.
