Aiper Scuba S1 Cordless Pool cleaning robot

252970

Enhance your pool cleaning experience with the Scuba S1, designed for all pool types up to 150 m². This advanced cleaner features a brushless drain motor, filtering an impressive 265 LPM, and a dynamic silicone brush for thorough debris removal. Its caterpillar treads offer unmatched mobility, while WavePath™ 2.0 technology ensures precise navigation and cleanliness on every surface. Choose from four cleaning modes, including an eco-friendly option, for customized pool care. Plus, enjoy the convenience of solar charging for an eco-conscious, low-maintenance solution.

PRODUCT DETAILS

Unrivalled Cleaning Performance

A device that always cleans according to your needs - at your times and the way you want it. The Scuba S1 was developed for both above ground and in-ground pools and cleans pools up to 150 m². It does this by using a brushless drain motor and filtering up to 265 LPM of pool water, while the dynamic silicone brush collects dirt and debris.

Caterpillar treads for superior mobility

The Scuba S1's caterpillar tracks improve contact with the pool surface. This results in improved traction, excellent mobility and superior obstacle clearance along the bottom and walls of the pool.

WavePath™ navigation technology 2.0

Using the latest technology, WavePath™ 2.0 utilises the natural flow of your pool to increase cleaning performance. Thanks to first-class sensors, the device can localise the location of the device in your pool and thus ensure spotless cleanliness on the floor, walls and waterline of your pool.

Four cleaning modes

Optimise pool cleaning with the Scuba S1's multiple modes: Floor, Wall, Floor + Wall or Eco - (regular cleaning). Customise each cleaning to the specific needs of the pool to ensure efficient and time-saving cleaning.

Regular Cleaning

The Aiper pool robot cleans for 45 minutes every 48 hours and then switches to energy-saving mode. This cycle repeats itself and ensures that the pool remains clean throughout the week. At the weekend,

the pool is ready for swimming.

What's in the box

- Scuba S1
- Charger
- User Manual
- Retrieval Hook
