Aiper Scuba S1 Pro Cordless Pool cleaning robot

253123

Experience unparalleled pool cleaning with the Aiper Scuba S1 Pro, featuring a robust two-layer filter and four brushless motors for efficient dirt removal. Its innovative horizontal waterline cleaning, powered by WavePath™ Navigation Technology 2.0, ensures thorough cleanliness across every pool surface. Equipped with infrared sensors for obstacle avoidance and double filtration, it captures ultra-fine particles, enhancing water purity. Control and monitor effortlessly through the Aiper App, with added features like Waterline Retrieval and HydroInsight Technology for a comprehensive pool maintenance solution.

PRODUCT DETAILS

Premium Cleaning Performance

The two-layer filter system works with the four brushless motors to add more power to scrubbing and vacuuming and can pick up dirt down to 3 microns in size and store it in the huge 5-litre dirt collection basket, efficiently cleaning pools of up to 200 m².

Horizontal Waterline Cleaning

The industry's first cordless robotic pool cleaner with horizontal waterline cleaning capability. The Scuba S1 Pro has flawless flow control and infrared sensors to help the S1 Pro manoeuvre around the pool, including obstacles.

Double Filtration

The 180 µm and 3 µm filters capture dirt and dust that even the naked eye cannot see, improving pool water purity and protecting users and their health from invisible bacterial threats every time they swim.

WavePath™ Navigation Technology 2.0

Using the latest technology, WavePath™ 2.0 utilises the natural flow of your pool to increase cleaning performance. Thanks to first-class sensors, the device can localise the location of the device in your pool and thus ensure spotless cleanliness on the floor, walls and waterline of your pool.

Infrared Obstacle Avoidance

Four infrared sensors on the device recognise pool walls, stairs and large obstacles and enable the device to adjust its path for complete cleaning

Smart Control with Aiper App

With Aiper App you can choose the additional Wall mode, monitor the battery level and review cleaning history. The App control is only accessible when the device is out of the water.

What's in the box

- Scuba S1 Pro
- Charger
- User Manual
- Retrieval Hook
