

## GoView Monocular ZOOMR HD, Miami Blue

251789

The lightweight GOVIEW® ZOOMR™ Mono 8x25 is a monocular that no household, backpack or glove compartment should be without. Thanks to its ultra-compact magnesium housing, it fits in any jacket pocket and is always ready to use at lightning speed for spontaneous observations - for example when hiking, at the football stadium, at events or brilliant details of insects in the garden. Because with the 8x magnification, you bring life 8 times closer to you. As if you were standing in the front row - live and in razor-sharp color.

### PRODUCT DETAILS

Small and mighty - our most compact companion for your daily discoveries

The lightweight GOVIEW® ZOOMR™ Mono 8x25 is a monocular that no household, backpack or glove compartment should be without. Thanks to its ultra-compact magnesium housing, it fits in any jacket pocket and is always ready to use at lightning speed for spontaneous observations - for example when hiking, at the football stadium, at events or brilliant details of insects in the garden. Because with the 8x magnification, you bring life 8 times closer to you. As if you were standing in the front row - live and in razor-sharp color.

And to make sure your GOVIEW® ZOOMR™ Mono 8x25 is a real eyecatcher every time you use it, there are four extraordinary colors to choose from.

PS: the GOVIEW ® ZOOMR™ Mono 8x25 is perfect for children's adventures big and small - no corner of the garden or hiking goes undiscovered.

Discover the unique details of your world with style and innovation

Inspired by the demands of professionals, GOVIEW® ZOOMR™ binoculars and monoculars come with an elegant design and many technical refinements for your use in nature, travel, sports or daily life.

To provide you with a new optical experience, the GOVIEW® ZOOMR™ series combines many years of technological know-how with a modern and colorful design language, under which many highquality details are hidden: the binoculars and monoculars are protected against water and fogging by a nitrogen filling and are particularly compact, durable and robust thanks to their magnesium or glass-fiber reinforced plastic housing - without weighing much.

The complete optics are optimized for a maximum field of view and all lenses are multi-coated. In addition, the innovative design guarantees maximum ergonomics, so that you have a firm grip on your binoculars on all adventures - and if you don't have a hand free, the high-quality carrying strap ensures that you always have them at hand.

If you wear glasses, you can easily adjust the binoculars and monoculars of the GOVIEW® ZOOMR™ series to your needs with the extendable eyecups - alternatively, you can of course adjust your eyesight with the aluminum diopter adjustment. In addition, each pair of binoculars and monoculars comes with a range of accessories: a high-quality carrying case, our PORTR™ carrying strap and the universal CLOSR™ smartphone adapter, to share your impressions online.

Now it's your turn, discover the GOVIEW® product world and experience your life with different eyes
