PRODUCT DETAILS

Unleash 4K Laser Magic

World's First Google TV 4K-Laser Projector with Licensed Netflix

Super Bright, Day or Night

Get ready for an immersive experience with exceptional brightness, whether you're watching in a sunlit living room or a darkened bedroom.

A More Advanced Laser Display for Binge-Watching

ALPD laser technology, embraced by over 30,000 theaters globally, offers clear, speckle-free, and color-fringing-free visuals.

Redefine Reality: 4K Prepare to be amazed.

4K UHD delivers 4x the detail of 1080p, bringing your entertainment to life with stunning clarity and razor-sharp images.

Netflix & More with GoogleTV

Browse 700,000+ * movies and TV episodes from across your streaming services —Netflix, YouTube, PrimeVideo, Hulu, Disney+, and more —in one place.

Live Sports at Your Fingertips

Live every roar and every goal. Don't miss any thrilling moment with sports and live apps from Google Play. * Apps and content may vary by country and region.

Entertainment, Your Way

Tailored entertainment starts here. Google TV personalizes your viewing experience with multiple user profiles, watchlists, and customized recommendations

Go Big. Go Bigger. Go Huge.

From an intimate 60 inches to a truly crowd-pleasing 200-inch cinematic immersion, there is always a perfect size for you.

See Every Detail with HDR

Witness every detail as the filmmaker intended! Experience deeper blacks and incredible highlights with HDR10+, HDR10 and HLG.

Sounds That Truly Surround

From whispers behind to helicopters overhead, prepare to be transported to the heart of the movie or concert with multi-dimensional audio.

InstantPro AI Image Setup

Featuring a CMOS, dToF sensor, and AI, InstantPro, with a 25%* improvement in speed, quickly and accurately adjusts the image to the best size and clarity. * Tested by Dangbei Lab, results are affected by projection angle, distance, etc.

InstantPro Safeguard Your Sight

Enjoy content knowing your family's safety is prioritized. Smart eye protection safeguards eyes, especially for curious little ones who might wander in front of the projector.

InstantPro Perfect Light, Every Time

Intelligent AI brightness adjustment automatically adapts to your environment. Day or night, bright living room or cozy basement, always get the perfect picture.

Dive into 3D

Witness incredible depth and realism. Multiple 3D modes perfect for indulging in your favorite compatible content, including 3D Blu-ray movies. Blu-ray 3D will be available after OTA updates in June. Please connect an external device via HDMI to use this feature.

Dominate Your Game

With the exclusive game mode, savor ultra-smooth gameplay, lightning-fast responsiveness, and seamless streaming –the ultimate advantage for victory. * Tested by Dangbei Lab, with Auto Keystone & MEMC off and Game Mode on.

Watch Sports with MEMC

MEMC technology eliminates motion blur, ensuring you see every heart-stopping goal, game-changing tackle, and record-breaking leap with incredible clarity.

Cast & Relax in Seconds

Skip complicated setups. Chromecast built-in and Airscreen functionality make it easy to cast content or mirror your phone / laptop screen to the big screen. "Hey Google, what should I watch?" *To mirror the entire screen from your iOS / Android device, download Airscreen app on the projector.

Quieter than a Whisper

Lose yourself in the movie, not the fan noise. Dangbei DBOX02 operates at a low noise level of under 24dB, letting your cinematic journey remains undisturbed.

Designed with Eco in Mind

Dangbei DBOX02 lasts an incredible 30,000 hours, that's over 20 years with 4 hours of daily viewing! With minimal maintenance and energy-efficient features, it's an eco-friendly choice you can feel good about.

Flexible Placement, Optimal Viewing

Easily mount the Mars Pro 2 Laser Projector on a desk or floor stand for perfect viewing. Whether in your living room or bedroom, adjustable options ensure the ideal projection angle and height, enhancing your immersive experience everywhere.
